Find below a course photograph about the route (5 Km loop), feeding stations (in orange colour) and turn buoys for 25 Km event.

## 15 RACE COURSE INFORMATION

The event will take place in the river Guadalquivir, along a 2,5 Km course (two or four laps depending on the event 5 or 10 Km). The course will increase from 2,5 Km loop to 5 Km loop for the 25 Km competition on 8<sup>th</sup> May 2008. Competitors will swim in anti-clockwise direction, keeping the turn buoys off their left shoulder. Water temperature will be approximately between 24-25° C. Start & finish will be adequately marked in the Rowing-Canoeing High Performance Centre. The course is between 3 and 8 meters deep.

Automatic timing equipment is to be used for the timing of the competition. In accordance with FINA Rule SW11, microchip transponder technology has been added to the equipment. It is mandatory for all competitors to wear microchip transponders on their wrists throughout the race. If a competitor loses a transponder the coach will immediately inform the referee who will instruct the responsible official on the water to issue a replacement transponder. Any competitor who finishes the race without a transponder will be disqualified.

The dive start will be the official start for all events at the 5<sup>th</sup> FINA World OWS Championships Seville 2008.

There will be one feeding pontoon for the 10 Km event, located in the centre of the course and allowing support staff to feed the swimmers on both sides. Coaches pontoon accreditation bracelets (only one per participant swimmer) will be given to access onto the feeding pontoon during the competition. Transportation will be given by boat, and support staff will not be shuttled back to shore until the race is completely finished.

Notice that no boats will be allowed on the course other than official boats. No escort craft will be used for the 25 Km competition. For this event there will be 2 feeding stations: one of them located in the same place as for 10 Km race, and the second 600 m before/after the first turn, making possible to feed the swimmer each 1.250 m. Each entered athlete in 25 Km event can name two trainers (one for each platform). No coaches will be allowed onto the feeding stations without accreditation bracelets. In 25 Km race, only if it is an urgent need and always giving priority to the event safety, there will be a boat to take them to land.

## ◆ FESTIVITIES

Seville's festive period par excellence takes place in spring. The calendar begins in March, from 16<sup>th</sup> to 23<sup>rd</sup>, 2008, with the renowned Holy Week (Semana Santa). Processions date back to the 16th C when the Pasión de Cristo (Passion of Christ) was commemorated and carried by religious associations known as *cofradías* or *hermandades* (lay brotherhoods). At present during the Holy Week, starting on Domingo de Ramos (Palm Sunday) processional parades are held in the afternoon and at night time. On Holy Friday (Viernes Santo) *cofradías* parade at dawn famous processions such as Macarena and the Gran Poder (Greatest Power). Statues of the Virgen son Dolorosas are decked with gold and silver crowns, a long velvet shawl and decorated with flowers and wax; these religious floats are carried on the shoulders of the *cofrade*. Sculptures of Jesus are presented dragging a cross and are decorated with red carnations or purple iris'.

These statuesque floats are always accompanied by *nazarenos* (Nazarene penitents). Dressed in different colored robes according to their lay brotherhood, they also wear cloaks and masks. Immediately behind these religious floats stroll penitents carrying huge crosses dressed similarly, yet without the hooded cloaks

Music is an important accompanying element in processions. Military styled horns and drums at times join the religious floats or at more dramatic moments complete musical bands, with more instruments follow statues such as the Dolorosas (grieving). Finally there is what is known as *música de capilla* (chapel music) interpreted by three musicians playing the bassoon, oboe and clarinet. They accompany the most solemn *cofradías*.

During the Feria (from 8<sup>th</sup> to 13<sup>th</sup>, April 2008) people dress up in typical traditional Andalusian peasant attire. The female dress has been transformed over the years and is the only regional attire subject to fashion. The fairgrounds are filled with colorful canvas made *casetas* (tents - booths) set up temporarily for the duration of the fair. The fairground streets are also decorated with colorful hanging lanterns.

During the mornings, horse driven coaches and riders stroll the grounds and from Resurrection Sunday bullfights are celebrated. The Feria is inaugurated at twelve midnight with the ceremonial "prueba del alumbrado" (lighting of the entry gate).

## ◆ BUSINESS HOURS

Meal schedules tend to be a bit later than the rest of Europe: breakfast is taken between 7.30 to 10 am. Lunch at restaurants is served from 2 to 3.30 pm and dinner starts around 9pm until 11pm.

Normal opening times of shops in the mornings are from 10am until 1.30pm and in the afternoon from 5pm to 8.30pm. Department Stores and Shopping Centres open from 10am to 10pm without a break, including Saturdays.

Most banks are open Monday thru Friday from 8.30am til 2 or 2.30pm. Only a few branches are open Saturday mornings. ATM machines are located throughout the city offering 24 hour service, most of which provide international service (Servired, 4B, etc.)

The Central Post Office schedule is from 8.30am until 8.30pm, Monday thru Friday.

Central Office, Avenida de la Constitución, 32

### ◆ ELECTRICAL ADAPTORS

The current in Spain is 220-240 V AC.
